

COST AND SUMMARY WIDGET ON PROJECT

The Cost and Revenue Summary Widget allows you to see the estimated cost and revenue summary from Resource Requests, Assignments and Milestones in the Project page layout. This is extremely helpful during the project planning stage where you create multiple resource requests, assignments or milestones and see the potential revenue and costs of the project.

Key New Features

- Smart grouping of Resource Requests and Assignments
- Supports Time and Materials, Fixed Price and Hybrid Project Scenarios
- Supports Daily Rates
- Supports Multi-Currency
- Handles Security Rules
